To the Electors of the Red Deer Constituency

My duties in connection with the Leadership of the Provincial Conservative Party will require me to speak at the leading towns and cities throughout the Province. I will therefore necessarily be away from my own riding until the last few days before the election. It will not be possible for me to hold as many meetings throughout the Constituency as I would like. Permit me in this way to express my appreciation of the confidence which you have reposed in me as your representative in the past, and if I am honored by a further expression of that confidence on the 17th, and am elected as your Representative, whether it be as Leader of the Opposition, or of the Government of this Province, I will do my very best in the interests of the Red Deer Constituency.

There is every probability that the present Government will be defeated on the 17th of April, in which case I will be called upon to form a Government. It will be the policy of our Party to make largely increased expenditures in opening up the country with good roads, very much larger sums will be expended on drainage, which is the foundation of good roads. My views upon the important issues before the people have been reported in the press, and will be known to you all. As Leader of a Government I will be able to shape the Policy of the Government, so that much more may be expended in the way of assistance to the agricultural interests, not only in the Red Deer Riding, but throughout the Province generally.

If I am honored by being returned as the Representative of the Red Deer Constituency, I will use my earnest endeavor to look after the interests of the people, irrespective of party.

Yours faithfully,

E. MICHENER

Formal Opening Ball

The Parish Hall was the scene of gaiety last Tuesday evening on the occasion of the formal opening ball. Many beautiful dresses were worn, far too numerous to mention each one, and as the ladies tripped the light fantastic, they were shown off to advantage. There was one gown of pearl grey chiffon over old rose satin with black satin draped across and finished with oriental buckle, which was unique, also a pretty frock of embroidery with touches of pale shell pink and hat to match. Very smart was an imported gown of ivory duchesse satin, with a pretty slashed tunic of cream net round which was rich lace insertion, the bodice being trimmed with lace and gold tassels and gold slippers to complete the gown. Another was a black silk velvet with coat of black lace, which fitted perfectly. A choice white satin, with overskirt of satin and edged with nob fringe, looked neat. A young debutante was charming in white silk with girdle of gold rope. Nothing was overlooked by the committee to make the event a memorable one. A supper prepared on an elaborate scale was served at tables gay with flowers. Wilton's orchestra rendered excellent music which, together with the ample dancing space and a splendid floor, was conducive to the enjoyment of the evening. About two hundred in all were present.

CORRESPONDENCE.

Mr. Editor.
Dear Sir:—I see the sewer pipe is frozen again in the cement bridge on Gaetz Avenue this morning, the very same place that it was frozen a few weeks ago. This will be a bill of expense to the town as long as the sewer pipe is cemented solid in the piers of the bridge.

ALBERTA LADIES' COLLEGE

Opening Ceremony Yesterday

The opening ceremony of Alberta Ladies' College of Red Deer took place yesterday afternoon and evening, and was attended by a large number of citizens of Red Deer, as well as of the leading centres of the province and surrounding district. Rev. S. D. Keith, President of the college, occupied the chair, and splendid addresses were given by D. S. McKenzie, Deputy Minister of Education, Edmonton, Rev. Dr. McQueen, Edmonton, Rev. G. W. Brown, and Wm. Shearer, Rev. Mr. Brown gave a historical sketch of the founding of the college. Rev. Dr. McQueen gave the dedication address, while the Deputy Minister spoke along the line of education. Rev. Robert Pearson pronounced the benediction.

A splendid programme was rendered by local talent. Among those taking part were Miss Huettis, Mrs. Gaetz, Madam Hope, Madam Quigley, Mrs. Sanders, Mrs. Coote and others.

A very pretty luncheon was served to those present by the ladies after the opening ceremony.

The worthy President, the Board of Management, and all concerned are to be congratulated on the success which has attended this most province. The College is now off to a splendid start, a number of new pupils having arrived the past few days.

A further sketch of the college will be found on another page.

Pine Lake

On the evening of Thursday last a grand concert, followed by a supper and dance, was held in the Sandy Cove Hotel, Pine Lake, in aid of the funds of Holy Trinity Church.

The weather was all that could be desired, and as a result the hall was filled to its capacity. One hundred dollars were the proceeds for the evening. The concert, as well as the supper and dance, was to all appearances enjoyed by all. During the past week the ladies and gentlemen of Pine Lake worked untiringly, making preparations for the above event. Many thanks are due to Mr. and Mrs. Ross of the hotel for their kind help. J. A. Simpson, M.P.P. of Innisfail, made a very jovial and thoroughly competent chairman. A few suitable remarks by the chairman preceded the following programme:

1. Instrumental Solo—Mrs. Potter
2. Sermon—Mr. W. S. Currie
3. Recitation—"Ten Little Nigger Boys"—Master Ben Lawrence
4. Song—Mr. Escott
5. Dialogue—"The Broker's Man"—Mrs. Lawrence, Mrs. Charles, H. Alford, Master C. Lawrence
6. Song—Mr. Potter
7. Piano Solo—Miss Evelyn Escott
8. Song—"Ten Little Nigger Boys"—Several boys
9. Recitation—Master Basil Bates
10. Violin Solo—Miss Knight
11. Play—"Borrowed Plumes"—C. Greenham—Botheby Bibbins
12. G. Bain—Mr. Tattleton (Captain Slater)
13. A. E. Cronshaw—Dick Mizzle (Mr. Tattleton)
14. Mrs. Charles—Miss Violet Bibbins
15. Rev. A. D. Currie—Emma (domestic servant)

Alberta Ladies' College, Red Deer

OFFICIAL OPENING YESTERDAY

The formal opening of the Alberta Ladies' College, Red Deer, took place yesterday, April 1st, when the handsome building was thronged with a large number of citizens and visitors from all parts of the province.

In situation, design, construction, and equipment, this institution can safely challenge comparison with any other of its kind, of similar or even very much larger size. The college is very handsomely built of dark red brick, and its west or main front directly faces the city. To enter, one approaches up a magnificent staircase, and is shown into a very large entrance hall, on the main floor. Here there is an office, on the left is a corner, and beyond that is a large room, tastefully furnished in wood and oak mission furniture, and brilliantly lighted. The walls are hung with steel engravings of some of the world's great masterpieces. On the main floor also are the President's private suite of rooms, and a number of classrooms.

Ascending to the second floor, one finds it devoted to dormitories, except for the hospital ward or sick-room, and the lady principal's suite. The dormitories are double bedded rooms, very conveniently fitted. They have good, strong, institutional iron beds, of a severely simple and therefore sanitary pattern. All the equipment of these rooms—clothes closets, table drawers, etc., is in duplicate, so that the occupants can keep all their effects separate. Bedding, towels, and so on are all provided, so that pupils need only to bring personal belongings. The boys' and girls' rest-rooms are used, with an adjustable rack opening into each room. Every room is fitted with storm sashes, and all windows with pulleys. This applies to other rooms, besides the bedrooms.

The third floor is given over entirely to dormitory use. On this floor are made sitting room, musical class room typewriting and musical practice rooms, and an art classroom, and a small auditorium. Here one may notice a mysterious circular brass plate in the floor, with a key-hole in the middle of it. On entering the room, you will be told it is the base attachment for the vacuum cleaner, a vacuum cleaner system being built into the college, and working from the cellar. Here one notices particularly the row of up-to-date sewing machines, and the ample north-light skylight.

The musical class-room is a large room, conveniently arranged, and doubtless with first-class acoustic properties. On the way down again, let us notice more particularly the classrooms, which we just of need at on the way up. Most of the classrooms have some special arrangement for the teaching of a special subject. In one is a terrestrial globe containing such store of up-to-date geographical, geological, and astronomical condition that it is almost a marvel of an exhibit. This globe is in a room, where pupils will receive a thorough grounding in hygiene and domestic economy. In this room also is a large, handsome, coal-burner, the vegetable room, a fruit storeroom, a general storeroom, and a room with specially arranged shelves for holding the students' books.

The capacity of the college is about eighty resident students and an equal number of day students. It will provide for a hundred residents easily, which allows a staff of twenty or more. There are thirty acres of land belonging to the college, and altogether, a more convenient and up-to-date educational institution could not well be imagined. Alberta Ladies College certainly should be well patronized and President, Mrs. M. Mulholland, and their assistants are to be congratulated on getting started in their new building.

legue West balcony. There are also fire-escapes on the south and east sides of the building. In or near the middle of each main corridor is a length of coiled hose attached to a sort of hydrant, so that any part of the building may be reached at once, with a good head of water, for fire protection. There are also about up-to-date bathrooms, lavatories, and all sanitary conveniences on every floor with tray-elevators, dumb-waiters, and linen chutes. The building is heated throughout with the Webster modulating system of steam heat, so that the warmth can be perfectly regulated everywhere. The college is well lighted throughout, and makes its own electricity with a 12 h.p. gasoline engine and a 7 1/2 k.w. dynamo. The flooring is finished with hard maple throughout.

To the eastern part of the ground floor is a dining room capable of seating a hundred and fifty people with a finely equipped kitchen overlooking the dining room, and a staff of twenty or more. There are thirty acres of land belonging to the college, and altogether, a more convenient and up-to-date educational institution could not well be imagined. Alberta Ladies College certainly should be well patronized and President, Mrs. M. Mulholland, and their assistants are to be congratulated on getting started in their new building.

Pine Lake U.F.A., No. 463

A meeting of this union was held at the Sandy Cove hotel on Saturday, March 22nd, H. F. Lawrence, president, in the chair.

The minutes of the previous meeting had been read and adopted. The secretary then read all official communications received by him. The following were nominated for membership: H. G. Greenham, Humphrey Charlton and W. B. Spiers, all of whom were accepted.

The question of wire was taken up. After discussing the matter it was decided to leave it over for the next meeting. The next question was that of flour, bran, shorts, sugar, etc., and after discussing these questions, the secretary was instructed to get all the orders he could from the members. A considerable quantity of flour, bran, shorts and sugar was ordered. Members who have not given their orders for flour, etc., please communicate with the secretary instanter.

Mr. Spiers gave a short address on the Grain Growers' Guide and co-operation.

A resolution was passed that this branch has no intention of opposing Mr. Atter's business interests, and it is the wish of the members that we work co-operatively with him.

A motion was brought in that politics will not be allowed to be mentioned at any of the meetings.

H. F. Lawrence reported he had potatoes for sale, and A. Crownshaw reported that he had a gelding 1200 for sale.

A resolution was carried that we have a picnic on May 24th and the following committee of management was named: Mr. Warke, W. R. Charley, T. J. Spiers, Rev. A. D. Currie, F. T. Edwards and A. Crownshaw. The meeting then adjourned to Saturday, April 5th, at 2.30 p.m., at the Sandy Cove Hotel, as arrangements could not be made for the meeting to be held at the North End as proposed.

Robert Milligan, Secretary.

The Death of Lord Wolseley

Lord Wolseley was a great soldier, who served his sovereign with great distinction over a long period and in many different parts of the world. Canada has always been much interested in his career from the fact that over forty years ago, when still a comparatively young man, he came to this country and put down the first Red River rebellion. His expedition first drew the attention of the world to the great areas fitted to sustain a large population that lay this side of the Great Lakes and western development may be said to date from that time. One of his officers, who afterwards became Sir William Butler, came west from Fort William Butler, and his book on "The Great Lone Land," as he found it, possesses great fascination to the reader of today.

Lousana

The death of William Campbell, one of our well-known residents, occurred on Wednesday, March 12th. Mr. Campbell, who was aged about thirty years and six months was born in Quebec and came to this district six years ago, in May. A sad feature was the fact that Mrs. Campbell and the children were visiting in Vancouver and could not get home until after the husband and father had passed away. Besides his widow, deceased leaves four children. His father and mother, two brothers and two sisters also survive.

Rev. Mr. Aiken officiated at the funeral services, which were held on Sunday, March 10th. The hymn "Face to Face" was sung as a solo, and there was a duet "Some day we'll understand." Mr. Aiken, during the services, spoke some very true and comforting words to the bereaved ones. Our sympathy goes out to them all.

Coming to Red Deer

We clip the following from the Bristol Times and Mirror regarding a presentation to a gentleman on the eve of his departure for Red Deer: The Highway Surveyor (Mr. Endors) is leaving Kemsnam shortly to take up a position at Red Deer, Alberta, and on behalf of members of the Council and officials, the Chairman presented him with a pair of prismatist field glasses. He remarked that they were sorry to part company with Mr. Endors, and they hoped he would be very happy in his new sphere. They hoped Mr. Endors would find their gift very useful, but it did not by any means represent their appreciation of his services.

The Clerk, on behalf of the officers, expressed regret at Mr. Endors' departure, remarking, however, that they were glad to know he was bettering his position.

Col. Rolleston endorsed the chairman's appreciation of the services of Mr. Endors, and said that what he liked was Mr. Endors' straightforwardness. He had always told them plainly what he thought, and one could place greater confidence in an officer like that.

Mr. Pearce also paid a tribute to Mr. Endors' worth.

Mr. Endors said he thanked the Council and officers for their generous gift. He had tried to do his best, and the council had always acted most courteously towards him. Kemsnam would always have happy associations for him.

Eckville

Mr. E. Michener, M.P.P., gave an address here in the town hall last Friday. Mr. Michener expressed his surprise and pleasure at the great advancement taking place in Eckville. He predicted a great future for our town.

Mr. Lars Hill, an old resident of this district, died last week, with sympathy with the bereaved family.

A number of Leslieville farmers were in town last Saturday. We understand they were a deputation to the co-operative store here.

The co-operative store will hold its first half-yearly meeting on Tuesday, April 15th, at 2 o'clock in the town hall. Everybody interested should attend.

This label has no "second grade"

THERE'S only one quality of Canada Cement. It is the highest quality that can possibly be made with modern equipment, scientific methods and rigid inspection by expert chemists.

The Canada Cement you buy for a garden walk is the same cement that is sold by the railroad for great dams, elevators and bridges. The engineers in charge of these great works have ample facilities for testing the quality of cement.

Canada Cement

comes up to their most rigid requirements.

The farmer has not these facilities for testing the quality of cement. He must buy a product upon which he can depend for a grade that is always of highest quality, and that therefore does not need to be tested.

You can place absolute reliance upon the quality of Canada Cement. It's always the same and always the best. The large output—which enables us to keep the price down, enables us also to maintain the factory equipment and organization that keeps the quality up.

A Canada Cement label appears on every bag and barrel of genuine Canada Cement. See that it's on the bags and barrels of cement that you buy.

WRITE for our free book "What the Farmer Can Do With Concrete." It has told a hundred thousand Canadian farmers of the money-saving and profit-making possibilities of concrete.

SOME PLAIN TALK.

The Calgary Albertan taunts Mr. Michener with having been a minister of the gospel, and slurs him for being a just man and true, fearless of consequences. Many good men have had to stand the same line of vulgar and senseless abuse.

The Advocate takes somewhat the same line of argument, stating that Mr. Michener's statements are "cast" meaning, of course, that he is a hypocrite and makes untruthful statements. The editor of the Advocate knows better than most people Mr. Michener's worth, because they both work for the betterment of humanity in the good old Methodist Church.

Mr. Michener has the whole force of the liquor traffic against him. We claim it a shame and a disgrace to see men like G. W. Smith, Vice-President of the Temperance and Moral Reform Association, and Rev. Mr. Huestis, Secretary of the Lord's Day Alliance Association, hand in glove with the liquor interests to defeat Mr. Michener, who stands for a square deal for the temperance people. The second plank in the Conservative platform stands for a control of the liquor traffic by placing it beyond the control of party politics, and giving the people an opportunity of voting for prohibition if they want it.

Mr. Michener need have no fear of the injury these would-be temperance men can do him. They are politicians first, last and always, and when the temperance question comes in contact with their politics, it is thrown to the four winds of heaven and they cry out that Hon. C. W. Cross is the only salvation for the temperance movement, although, as Mr. Hunt stated on the platform, he (Mr. Cross) has gold-dipped the movement for the past two years.

A CONSTRUCTIVE POLICY.

The Advocate says again that Mr. Michener has no constructive policy. This is false.

One of Mr. Michener's first remarks at his big meeting was that if he was returned to power one of the first things he would do would be to move for a commission to look into the great possibilities of the water power of the province, and the feasibility of constructing great dams across our rivers for electrical purposes.

The banks of the Red Deer river are hundreds of feet high east of Red Deer, and experts have claimed a great dam could be built to furnish power enough for the whole province of Alberta, at a low cost, and that there was not a river in Alberta or Canada so well adapted for this purpose as the Red Deer river.

Is that not a constructive policy? And what would it mean to Red Deer and district?

Again, Mr. Michener has advocated more money for roads and bridges throughout the province, especially a bridge east of Red Deer, but Premier Sifton replied that he would rather put the money where he could see it in costly parliament buildings than in mud holes out in the country. The farmers might wallow in the mud for all he cared.

Is not Mr. Michener's policy, in the eyes of the farmer, a constructive policy?

Again, Mr. Michener advocated a splendid agricultural college at some central point, where the intelligent young farmers could be suitably educated for their future avocation, instead of having to send them away to Ontario and Manitoba to be educated, at great expense, in lieu of a number of costly model farms in the constituencies of Cabinet Ministers to furnish Hon. Duncan Marshall an opportunity to lay expensive estate in Ontario to compete with hard-working farmers who are trying to build up first class herds of cattle in the west, and to make the Cabinet Ministers safe in their seats.

Is not that a constructive policy? He favors control of traffic rates on railways, control of the liquor traffic, more land titles offices, natural resources, internal elevators, life insurance, meat packing plants, loans from settlers, telephones to be taken from political control, better labor legislation to protect workmen, civil service reform, and many other strong planks.

But why continue? Mr. Michener has a more advanced and constructive

policy than Premier Sifton and his ministers, who have exploited the province for their own ends, and the people will, on the 17th day of April, say without a doubt that they are tired of such maladministration, and will place Edward Michener, the honored member for Red Deer, at the head of the government of Alberta.

THE MAYOR SHOULD BE RECALLED.

The News does not believe it is good business for the Mayor of Red Deer to be addressing meetings in the interests of a political candidate, and neglecting the town's business. The Mayor is head of the town and represents all classes, and received the support of all. The Mayors in the past, even when they were not paid officials of the town, have abstained from active work in a political campaign, and we do not think Mayor Galbraith should break away from this rule, which we believe to be a good one. We believe the affairs of the town are suffering at the present time owing to the Mayor's absence. Commissioner Stephenson has always scrupulously abstained from any outward work of this nature, feeling that the town would not stand such a thing, and the same law applies in a certain degree to the Mayor, who is also a Commissioner. Mr. Galbraith has several times made statements in his addresses as Mayor of Red Deer which are obnoxious to many people, one in particular, at Sylvan Lake, he apologized for at the Council meeting Thursday night. We hope the Mayor will see the point and in future abstain from the appearance of evil.

MR. MICHENER THE NEXT PREMIER OF ALBERTA.

A false and malicious statement was circulated last week that Mr. Michener was in poor health and would give up the leadership of the Conservative party after the election. There is not a particle of truth in the statement, as Mr. Michener was never in better health, and the statement was only circulated to do him harm. Such tactics are degrading in the extreme and go to show the Liberal press will descend to the lowest depths to do their opponent an injury. Mr. Michener will not only be the next member for Red Deer, but will, we believe, be the next Premier of Alberta.

The love of the editor of the Advocate for the Sifton Government is sublime, like a faithful shepherd dog he follows his master and keeps close to heel. Consistency is his guiding star. He does not see any inconsistency in supporting the present Liberal government in Edmonton, in spite of the fact that there is not a Liberal principle which the autocratic rule of Sifton has not assaulted. For three years we have had an autocracy which has flouted and scorned the franchises of the people, we have been ruled by a master never chosen by the people, and whom has never asked the consent of the people to rule, a man who has crushed under his iron heel the rights of the people. Denial of the rights of the people in this regard has been followed by denial of the rights of contractors, and the rights of bondholders, by confiscation legislation, by robbery of the schools and hospitals, by diversion of public money, by concealment of public accounts, by refusal to the press of information in the interest of every species of unfairness known to political bosses, by silence and secrecy, by bribes and flouts and every other device known to a redistribution Bill framed to defeat the popular will at the polls and to secure the forced return to office of a government which he well knows could not possibly be elected by any fair appeal to the people. There is a certain kind of consistency which is admirable, and that is consistency of principle, but the Liberal editor shows no trace of this variety: his is a purely party stripe; it is the kind of consistency which is like a steel hoop around a narrow mind to keep it from expanding. To the one hand the editor is devoted to certain principles which are supposed to be the very essence of Liberalism, and the other hand he is devoted to a party which has coolly consigned those very principles to the limbo of forgetfulness. This is the kind of consistency which is the mark of a man whose mind is as twisted and wriggled in writing on this matter in order to mislead the people and to create a false impression.

The people of Red Deer know Mr. Michener well enough to know that he could never be guilty of such contortions between his party and his conscience as the editor of the Advocate has put him through. When practical admissions are made that not much can be said in defence of the record of the present Government, and these are followed by the most partizan editorials, it would seem that the editor of the Advocate keeps a double conscience, one for the guidance of the private party and one for his editorial effusions. It would not appear that editorial ravings about independence come well from such a source.

Another broken-down politician from Ontario is taken to the bosom of the Liberal party in Edmonton in the person of A. G. MacKay. This gentleman, although considerable of a gas blower, like Duncan Marshall, was a dead failure in Ontario, and sad rumors of doings leaked out which might explain the reason for his coming west. He was a member of the corrupt Ross Government that was hurled from power by the people. Then, as leader of the Liberal party, he was a dismal failure, there not being a strong man left to lead the party. His small following was still more reduced at the next election, and he threw up the sponge in disgust and came west. How nice to be taken to the bosom of the Edmonton Liberals.

If the Albertan, Calgary, will kindly continue to backguard Mr. Michener and make fun of his religion, and will also continue to abuse the first Lord of the British Admiralty, Lord Churchill, for siding with Mr. Borden, we shall be exceedingly glad. In speaking to a life-long Liberal, yesterday, who had never given a Conservative vote, the man remarked that, as a temperance man, a church member and a law-abiding citizen, he resented the sneers of the Albertan, because Mr. Michener was a good man, and on reading the paper he said he would now vote for Mr. Michener as a protest against such disgraceful journalism, while he had been in doubt before the slurs of the Albertan had been the last straw. And there are others.

Michener, the next Premier of Alberta.

R. B. Welliver and Mayor Galbraith are holding Liberal meetings out west this week.

Direct taxation will face the people of Alberta if the Sifton government is returned to power.

Sifton, Cross and Anarchy.

A thousand dollars is lost in interest every day in the A. & G. W. case.

The Sifton government passed an appropriation of \$375,000 for roads and bridges. Mr. Michener calls for one million dollars. Who is the farmer's friend?

Hon. C. W. Cross and Hon. A. G. MacKay have been nominated by the Liberals for Edmonton. All that is now necessary is to nominate Cap. Sullivan and the fare will be complete.

This, from the Calgary Albertan, is a nice little slap in the face for Mr. Welliver and H. L. Gault, who worked so hard to get the piece of land attached to the Sifton Government purpose of defeating Mr. Michener. As a matter of fact the governments should not have taken two and a half townships from the Red Deer riding and added them to Edmonton, and it shows the generosity of the Sifton administration that they were willing to do something to assist the leader of the opposition.

Some seven women of easy virtue of Edmonton were fined recently and shipped out of town. The Council were so shocked at the idea of a woman going into the treasury that they brought up the matter at their last meeting and demanded by motion that the fine of \$5 be returned to the women. The costs of court were, however, not returned. It was stated which member of the Council was to return the money. A village council that sets itself up as a high court of justice over the local magistrate is treating up a whole lot of future trouble for itself.

Premier Sifton claims to be the farmer's friend. His organs have shouted of farmer legislation introduced and carried through, and every farmer should vote for him. But what do we see at the present time? He is running in two ridings. He is afraid he will be beaten by an out and out farmer in Vermilion. He has been defeated by a redistribution Bill framed to defeat the popular will at the polls and to secure the forced return to office of a government which he well knows could not possibly be elected by any fair appeal to the people. There is a certain kind of consistency which is admirable, and that is consistency of principle, but the Liberal editor shows no trace of this variety: his is a purely party stripe; it is the kind of consistency which is like a steel hoop around a narrow mind to keep it from expanding. To the one hand the editor is devoted to certain principles which are supposed to be the very essence of Liberalism, and the other hand he is devoted to a party which has coolly consigned those very principles to the limbo of forgetfulness. This is the kind of consistency which is the mark of a man whose mind is as twisted and wriggled in writing on this matter in order to mislead the people and to create a false impression.

The people of Red Deer know Mr. Michener well enough to know that he could never be guilty of such contortions between his party and his conscience as the editor of the Advocate has put him through. When practical admissions are made that not much can be said in defence of the record of the present Government, and these are followed by the most partizan editorials, it would seem that the editor of the Advocate keeps a double conscience, one for the guidance of the private party and one for his editorial effusions. It would not appear that editorial ravings about independence come well from such a source.

MAYOR GALBRAITH'S STATEMENT AT SYLVAN LAKE.

Editor of The News.

Dear Sir—I was present at Mr. Michener's meeting at Sylvan Lake on Wednesday last, March 28th, and heard Mayor Galbraith make a statement which, if true, should not only be investigated, but those responsible should be brought to task. The statement called upon to resign, having been made by Mr. Michener, who had opened the meeting on Mr. Michener's behalf with a brief speech, in which he referred to the action of the government in handing the Hon. Duncan Marshall some \$23,000 cash, which he said was his own money in the bank at Olds. Mayor Galbraith was the next speaker on behalf of Mr. Welliver. He first of all enlisted Mr. Michener in such a way that a stranger would have thought he was there on Mr. Michener's behalf. He proceeded then (as he thought) to tear John's speech to pieces, and commenting on John's

E. MICHENER, The Coming Premier

Triumphal March of Michener in the West

CAMPAIGN NOW IN FULL SWING

The meetings held by E. Michener, the Conservative candidate for Red Deer, and the coming Premier of Alberta last week, throughout the west, were a revelation to the electors, and showed that the intelligent farmers of the west country were almost unanimous for Mr. Michener and Good Government.

SYLVAN LAKE

Wednesday night the first meeting was held in the large and spacious hall at Sylvan Lake, and was attended by the largest number of citizens ever seen at a meeting in that town. Mr. Michener was ably assisted by E. G. Johns, who made a rattling good opening speech, while P. W. Galbraith appeared for R. B. Welliver.

Mr. Michener spoke for about an hour and a half, and was listened to with the greatest attention, and was repeatedly cheered. He carried conviction to the hearts of his hearers, and at the close he was cheered and cheered again, by the crowd, almost the entire audience appearing to be Michener men. One little episode was most amusing. Mr. Galbraith worked himself

up to a high pitch of enthusiasm about the great bend in Sylvan Lake had enjoyed from the railway, which was all due, he said, to the Sifton Government guaranteeing their bonds. "That's not so," said Mr. Michener.

Mr. Galbraith then said that perhaps Mr. Michener would explain. Mr. Michener explained that the railway was financed by German capital, and the Sifton government had nothing to do with guaranteeing its bonds.

It was some time before Mr. Galbraith could go on with his speech, but when he did he was a sadder if not a wiser man.

Forrester tried to get up a cheer for Mr. Welliver, but there was not more than half a dozen responded.

EVARTS

This evening a big meeting, packed with intelligent voters, was held at Evarts. Mr. J. H. Robinson ably filled the chair, and the meeting was almost entirely in favor of Mr. Michener.

The voters were loud in praise of the straight talk put up by our member on roads, bridges, drainage and cheap money for the farmers, as well as on other important issues.

ECKVILLE

Friday afternoon a good meeting chair. Mr. Michener was given a splendid hearing, and he will have a Matchett, the old war horse, in the good majority here.

LESLEVILLE

Friday night the hall was filled with a most enthusiastic crowd of friends of Mr. Michener. Mr. French occupied the chair most ably, and the speaker of the evening made a most comprehensive address, drawn

against him, but he assured his hearers he had their interests at heart and was always working to accomplish more for the constituents in the way of better roads, drainage and bridges, and asked for a strong vote from Rocky Mountain House.

The chair was ably occupied by Mr. Kirby. Mr. Michener said many false stories had been circulated about him in an effort to induce settlers to vote

statement about the \$23,000, he said that while he was ready to admit that the action was a little irregular, he did not see any harm in it, as other governments had done the same thing, and that it was done by the Council of Red Deer at the present time. Mr. Michener immediately asked Mayor Galbraith to stand up and say something, but he could not do so publicly, but would give Mr. Michener the name privately.

Now, Mr. Editor, if the Mayor spoke the truth, there is something wrong somewhere, and until the matter is cleared up, grave suspicion will rest upon the officials of this city. Probably the Mayor has some excuse, but it should be a better one than what I heard on Saturday, for, as I understood it, that was only a contemplated act, not yet carried

ABSURD AND DISHONEST APPEAL.

(Edmonton Journal)

It is close to two months since the A. and G. W. judgment was handed down. It brought about a most chaotic state of affairs in the province's finances. The government attempted to seize \$7,400,000 and convert it to the general funds. It raised large sums on short term loans, with the idea of recouping itself later out of the railway money. It has paid several hundred thousand dollars out in interest, thinking to get this back when the case was settled in its favor. It has spent large sums in legal expenses in fighting the action to the highest court in the Empire.

That court has not only decided that the government cannot take the principal amount, but that it has to pay all the costs of the two years of legal fighting. All this money spent in interest charges and court costs is absolutely wasted. Materials and supplies worth upwards of half a million dollars have been rotting away in the woods along the right of way of the projected railway.

It is a certainty that the province has, through the policy of the government, sustained an enormous loss, while no one can tell how much this will be added to before a solution is finally obtained.

But, in the face of all this, Mr. Sifton proposes to go to the country without announcing what he intends to do in an effort to right the wrong which he has done the province. In the most matter-of-fact way he asks the people be patient and trust him.

As the Calgary Albertan the other day urged, the whole problem will be satisfactorily settled "in the long run" and in the meantime we are supposed to give the government another lease of power.

Could pure, unadulterated nerve go further? With all these ugly facts before them, can the electors of Alberta accede to the request that the A. and G. W. matter be set aside from the discussion? There never was a more absurd proposition put forward in the politics of this or any other country.

The meaning of the move is as plain as a pikestaff. The premier talks about the impossibility of arranging a settlement by cabalgation. But everyone knows that this is not the difficulty.

The Liberal party, as constituted at present in the Legislature, cannot present an A. and G. W. policy. The members were divided on it when the premier's confiscation policy was introduced, and they are still.

But they all have a higher regard for office than for anything else, and in the hope of getting a new lease of this they are prepared to go before the electors with no policy whatever on what is by all odds the most important matter facing the province.

They are all willing to swallow

their convictions and their animosities if by so doing they can prevent the Conservative party from securing a majority in the House.

A more dishonest proceeding cannot be imagined. If their plans succeed, it must mean that humbug is what the people want. Their victory in the impending contest will throw back the cause of honest and efficient government in this part of the Dominion to an appalling extent.

These are not the words of campaign clap-trap. Anyone who has followed the recent political history of Alberta at all closely knows that they are absolutely true and the emergency is surely one when all who have any pretensions to good citizenship should forget party names and vote according to their honest judgment of men and measures.

Why should anyone, because he has been a Liberal in the past, vote for a candidate who calls himself by that name, but in whose personality and career he sees nothing whatever to admire?

We are on the verge of a most critical campaign. The people of Alberta are to be submitted to a test that means a very great deal to the future of the province. And there is no indication that they will be found wanting. Those who have been unworthy of the trust which was placed in them must not, and cannot, be allowed to come back and re-assume the responsibilities of office.

THE CITY COUNCIL

There was a full meeting of the City Council, Thursday evening, with His Worship the Mayor in the chair.

The Council resolved itself into committee of the whole to hear appeals on the local improvement assessments for 1912.

The Secretary-Treasurer stated that no appeals had been handed in. Moved by Aldermen Carswell and Smith that no appeals having been entered against the local improvement assessments for 1912, therefore be it resolved that they are hereby confirmed. Carried.

COUNCIL RESOLUTION.

The Secretary of the Hospital Board was asking for the balance of money due on construction account.

Gorman, Clancy & Grindlay, Limited, wrote re. steam roller. Auditor Allen reported accounts audited to end of February.

From City of Wetaskiwin re. debentures.

A letter was read from N. D. Keith, President of Alberta Ladies' College, asking the Council to proceed with the walk to the college, and stating the College Board would stand behind the proposition.

Hatepayers C. C. Mitchell, D. Miller, J. C. Brierley and others, petitioned for a street light near corner of 5th St. N. and Hally Street. W. P. Bull wrote a very encouraging letter to Mayor Galbraith re. Verity Park property.

COMMISSIONERS' REPORT.

The Commissioners brought in the following report: We called for tenders for the supply of lumber for 1913 and six tenders were received. We recommend that the tenders of Cushing Bros. be accepted, their being the lowest.

The local Board of Health organized for the year with John Malcolm as chairman and A. T. Stephenson as Secretary. It confirmed the appointment of Inspector as Health Inspector, and dealt with a tuberculosis in the hands of the Medical Health Officer.

We have instructed the Inspector to make a strict sanitary inspection of all premises in the town and report on the condition of each, and where improper conditions are found to have them abated. In view of the fact that all the regular committee work of the Council is transacted by the Commissioners, it might be as well to have the health work dealt with under the same system. For this an amendment of the Provincial Health Act may be necessary, and we would ask your authority to take up this matter with the Town Solicitor.

As the manager of the Empress Theatre had neglected to make the arrangements promised, he was ordered to have them made at once.

We submit herewith copies of messages exchanged re. Goldman & Co. draft. The draft for \$16,708.69 has been forwarded.

Mr. Tyner, an officer of the Provincial Board of Health, was in town on the 20th inst. and gave orders to have nuisances along the Washburn creek outside the town abated. We rented the old exhibit building near the C.P.R. station for \$25.00 per month from April 1st. We have also rented the shack in Woodlea for \$5.00 per month.

The Attorney-General's department requested Chief Bell to go or send a constable to Medicine Hat to bring back a prisoner arrested there on the criminal charge of passing a worthless cheque. As the matter was entirely out of the Town's jurisdiction, we decided that the Town Police had better attend to their own duties, and have instructed Chief Bell not to assume any responsibility for police work outside the town limits, except in case of emergency.

We discussed with Mr. Greene the question of notifying the C.N.R. of the Council's wishes regarding the signing by them of the agreement before commencing work in the town, and he will write them about it.

We recommend the acceptance of Chief Meere's offer for lots 8 and 9, Block 24, Second Ave. East, at \$1400.00, the assessed value for 1913, on the terms proposed, and ask your authority, if you approve thereof, to have the necessary papers executed. The lots are two of the seven lots given by the Townsite Co. towards the cost of the diversion of the creek. While we are not in favor of the disposal of town property, as a rule, yet there does not appear to be any public use to which these lots may be put unless as a playground, and that contingency is amply provided for in that neighborhood by the south school grounds and the park property. In any case we have still the five lots in reserve in that district.

We submit herewith list of accounts for your authorization to pay. All of which is respectfully submitted.

F. W. GALBRAITH, A. T. STEPHENSON, Commissioners.

The Commissioners' report was adopted with the exception of the 9th clause, and it was decided, on motion of Aldermen Carswell and Botterill, to advertise the lots referred to in the clause for sale, in the local paper.

ACCOUNTS.

The following accounts were authorized to be paid: W. G. Healy, \$19.70; The Grant Novelty Co., \$8.50; The Monetary Times, \$3.00; E. Allen, \$37.35; Dr. McFreight, \$4.00.

Alderman Mursin and Botterill moved that the Red Deer Memorial Hospital be paid the balance due them on their grant for the construction of an addition to the hospital, less \$1000 for an X-ray machine. Carried.

Moved by Alderman Botterill and Carswell—That after having had an

informal interview with representatives of the Western General Electric Co. regarding the property of the Company, the Secretary notify the Company that in the opinion of the Council the municipality would not be justified at the present time, owing to existing conditions, in undertaking such an obligation, as would be necessary in acquiring the property, and that they wish to thank the representatives of the company for their courtesy in the matter. Carried.

Alderman Botterill drew attention to the fact that Mayor Galbraith had made a statement at a political meeting at Sylvan Lake in reply to a speech by Mr. Johns condemning Hon. Duncan Marshall for issuing cheques out of public funds placed for his own credit, that the same thing was being done by an official of the municipality of Red Deer. Mr. Michener asked for his name, and Mr. Galbraith said he would give it to him privately.

Mr. Botterill said this was a grave charge to make and, while there was no politics in this Council, we were entitled to an explanation.

The Mayor explained that the case was a tubercular patient dealt with by the Board of Health, and that Dr. Gray was instructed to issue a cheque to send the man away to a proper place to be cared for. He said he was very sorry the thing had occurred, and in the heat of a political speech he had not thought of the reflection on the officials of the town. He made an apology to the Council, and stated he would not use the illustration again.

Alderman Botterill said Dr. Gray was not an official of the town, and the statement was pretty far fetched. The Council then adjourned.

100 Dead, 300 Injured
By Tornado

Lincoln, Neb., March 24.—One hundred are dead, twice as many more were injured, some fatally, by the death-dealing tornado which devastated Omaha and environs early last evening. It demoralized telegraph and telephone service and cut off Omaha from communication with the outside world. Property damage will mount up into hundreds of thousands.

The tornado swept in from the southwest and zig-zagged to the northeast over the residence portion of the city, leaving in its wake destruction and carnage from two to four blocks wide. Fire sprung up all over this area and added to the horror of the twister. Firemen were unable to respond to the numerous alarms, and many houses were allowed to burn to the ground. The police were unable to properly police the stricken district, and the soldiers from Fort Omaha were called out. The tornado zone soon was practically under martial law. The villages of Benson, Dundee and Florence, suburbs of Omaha, were practically wiped out. Only the fact that a heavy rain fell for half an hour after the tornado saved the mass of wreckage and many dead bodies being wrecked.

Amateur Association
Needed

Why can't we have an amateur Athletic Association in Red Deer? There must be some good quality in town for the dash, quarter-mile, half-mile five-mile, etc. There are a lot of young fellows who are only waiting for somebody to set the pace and if we started an athletic association, with a good manager and trainer, there is no doubt some fast stuff could be produced. Last year we had a number of men in the provincial amateur athletic meet, and although they did not win many prizes, they gained some valuable experience and made a good showing. We had the provincial meet in Red Deer last year, the athletic authorities recognizing this as a sporting town, and in return we ought to send a good representation to the meet this year. A number of young fellows have already expressed their intention of practicing for the different races, and if Percy Smith and Fred Lund will help us with some strong arm stunts, there is no reason why we cannot produce an amateur bunch to be proud of. All that is needed is an enterprising hand at the wheel.

Milkmen Organize

A large and enthusiastic number of the representative milk producers of the Red Deer district met, Thursday last, in the Canadian-American Land Co.'s office to form an association. H. R. Thornton was appointed temporary chairman, and the following resolution was adopted:

Resolved—That we be known as The Milk Producers' Association of the Red Deer district.

The following officers were elected: A. H. Trimble, President; J. H. Comfort—Sec'y-Treasurer; H. R. Thornton, H. L. Leavitt, H. J. Comfort, A. H. Trimble—Executive Committee.

A membership fee of \$1.00 will be collected. A. H. Trimble was instructed to procure a copy of the by-laws and regulations of the Milk Shippers' Association of the Huntington District, Quebec. After a very interesting and profitable discussion of the dairying prospects in the Red Deer district, the meeting adjourned, subject to the call of the President.

MILLINERY

The weather certainly makes one feel like discarding winter hats, they feel heavy and look out of place.

Our Millinery Prices this year are so much less than ever before that you wonder. In fact we have surprised ourselves in being able to attach such popular prices to high grade millinery. The secret is in our improved buying connections made last year.

We have, or can make a hat to suit every taste, at every price. The other day a woman ordered a hat which cost her only two dollars, and it looked like four-fifty, because we carry high grade goods and our prices are not necessarily high.

MEN'S SUITS

Semi-Ready and Johnstone Suits here for your consideration, in good serviceable Tweeds, neatly and properly tailored. Semi-Ready Clothing requires no introduction and is sold at the same price as in Montreal, where it is made. We can please you from our stock.

Duty on Farm Products to be Removed by Democrats

SUGAR AND LUMBER ALSO ON FREE LIST

Washington, March 19.—One general bill covering all schedules has been finally completed by the Democratic ways and means committee, fourteen copies made, and the forms in the government printing office have been "piled" or broken up so that there may be no danger of premature leaks. Trusted messengers of Chairman Underwood carried the corrected proofs to the government printing office today, and the four copies, one for each member of the committee, were struck off. Each member who has a bill has locked it in his safe and all have been pledged to absolute secrecy.

Despite all the precautions that have been taken, the pressure on sev-

eral members of the ways and means committee by their fellow members in the house, who have been interested in various schedules, was so great that the information leaked out that the following provisions are in the completed measure: Free sugar, free lumber and free farm products.

A drastic cut has also been made in all the items of the steel and iron schedule.

Less than half a cent duty on oranges, nuts, raisins, wines and all the leading products of California, which was one of the states which voted for the election of Woodrow Wilson, and it is now one of the greatest sufferers from the Democratic policies.

Greatest Catastrophe in History of United States

3,000 LIVES LOST. PROPERTY LOSS WILL PASS \$100,000,000 MARK

Columbus, Ohio, March 27.—According to the figures as revised by government officials at ten o'clock today the catastrophe which has befallen Ohio and Indiana is the greatest which has ever befallen any part of the republic. The Johnston flood and San Francisco earthquake not being excepted.

The latest information indicates that the death list in Ohio is 3,066, while together with Indiana is placed at 3,282. The probabilities are that these figures will be greatly increased when the returns from the surrounding country are received.

In addition to the dead 2500 are said to have been fatally injured while 8000 odd are seriously injured. The property loss will be at least \$150,000,000, a large proportion of which is covered by insurance.

The last words of the operator was that the town was under water, that a building near the telegraph office had fallen, and that he would have to get out.

The Muskingum river empties into the Ohio at Marietta, and the local United States weather bureau today sent out flood warnings to all points below Zanesville to prepare for a flood.

All points below Zanesville were cut off from the outside world last night.

SEVERAL TOWNS SUBMERGED.

Columbus, Ohio, March 27.—Last available information from these places was that they were partially or wholly submerged. Marietta and Canalville were reported to be under several feet of water. The Muskingum river was reported to be more than 10 feet higher than ever before.

Chillicothe, Circleville, Portsmouth, Linton and all points in the Miami valley south are cut off from communication tonight.

GREAT LOSS IN DAYTON.

Although reports of distress and disaster are coming in from every section of the state, the greatest damage and loss of life, from all reports, is at Dayton. The conditions there being described. Practically the business section of the city is completely all under water and the estimated loss of life is appalling, fires are adding to the horror by burning the death toll.

The lurid lights from burning buildings added horrors to the stricken city last night. Loss of life is estimated at from hundreds to thousands.

RESCUE ATTEMPTS FAIL.

Disappointed efforts at rescue yesterday failed to clarify the puzzling situation regarding loss of life from the floods in Columbus. How many are dead there it is not known. Many who are conservative place the loss at from 100 to 150.

At Delaware, 25 miles north of Columbus, the inhabitants are still foodbound and details are unavailable. The known dead already number 23, according to a correspondent who is on the scene. This town, not unlike others, is isolated.

From Sidney comes the report that 1000 to 500 have been drowned. Governor Cox said that he has no loss of life at Sidney.

Thin reported at least 50 lives lost.

RESERVOIR WAY BURST.

Snyder, Ohio, March 27.—The Lewiston reservoir, ten miles long, has weakened in several places and grave fears are entertained that it will break. Snyder is partly under water and several deaths are reported.

SPECIAL TRAIN BEARS SUPPLIES.

New York, March 27.—A special train bearing food, water, drugs and blankets prepared for the relief of the sufferers in Dayton, Ohio, left the city at 11 o'clock last night over the New York Central system. It carried physicians, nurses, and Red Cross workers, who will take to the nearest available point to Dayton and rushed with the supplies in automobile trucks through the flood area into the stricken city.

The National Cash Register company had the train made up and despatched. It will establish headquarters at its plant in Dayton for the distribution of relief supplies carried by the special.

ZANESVILLE AWAITS NEWS.

Zanesville O., March 27.—(Via

telephone)—The city is stoically awaiting the worst. Seven persons are known to be dead, and the fate of 500 others, workmen and their families who had homes in the flood district, is in doubt. The Muskingum river this morning had reached a height of 55 feet and is rising at a rapid rate. The city is under martial law. Fire is threatening to add to the horror of the disaster. Several stores in the downtown section are burning, and there is little hope of extinguishing the flames.

There are several thousand persons homeless. They are being taken care of in stores and public buildings. Nearly one half of the city is under 15 to 80 feet of water. Factories have been destroyed, and a number of residences swept away. The loss will amount to thousands of dollars.

(King George of Greece Killed by Poor, Weak and Feeble-Minded Greek

Great Man is Sacrificed to Fanaticism of Worthless Creature

Salonika, March 18.—King George of Greece was assassinated while walking in the streets of Salonika this afternoon. The assassin was a Greek of low mentality, who gave his name as Aleko Schinas. He shot the king through the heart. The king was accompanied only by an aide, Lieut. Col. Franchoski. The assassin came suddenly at him and fired one shot from a seven chamber revolver. The tragedy caused intense excitement. Schinas was seized immediately and overpowered. The wounded king was lifted and taken to Papafio hospital. He was still breathing, but died within half an hour.

Prince Nicholas, the king's third son, and other officers hurried to the hospital. Arriving first, Prince Nicholas summoned the officers and, speaking in a voice choked with sob, said:

"It is my deep grief to have to announce to you the death of our beloved king, and you to swear fidelity to your new sovereign, King Constantine."

Crown Prince Constantine, who succeeds King George, is at present at Janina. He is expected to come here with all possible speed.

The assassin of the king is an evil-looking fellow, about 40 years of age. Upon being arrested he refused to explain his motive for the crime. He declared that his name was Aleko Schinas, and in reply to an officer he answered he had no use for governments.

SPRING ON THE FARM

Spring is here once more, and the farmers are preparing for another year of sowing and reaping. The year really starts January first, but the farmer generally counts from the beginning of spring, as this is when his labors start afresh to raise a good crop of grain, gather in lots of hay, and increase his stock.

The farmer generally knows when spring has come to stay. There is a fresh, moist feeling in the air altogether different from the dry chill air of the winter. The horses and cattle begin to shed their old coat of hair, and extra corn is added to the pie's tail, and the rooster's crow is more frequent and loud.

First comes the passing of the snow, when all the ponds are filled and the streams flooded. In a few days there is no snow to be found except on some hillside in the shade. Then the farmer piles his sleighs in the shed and brings out the wagon. Also the plough, harrows and seeder, repairing everything for a rush of work when the frost is out of the ground. Seed grain has also got to be prepared, the farmer generally soaking the grain in a mixture of formalin to kill all noxious weed germs.

Ploughing comes first, and soon the stubble fields are streaked with black furrows, which gradually grow wider and wider. The ground is generally in good shape in the early spring, and to the amount of snow in the winter, and the soil turned up is always moist and fresh. About this time the birds begin to come back, the robin with its loud red breast, and the blackbird being about the first, and numbers of these follow the ploughman around, eating the worms that are turned up by the plough.

Then comes the harrowing. Here the farmer has a hard task, following the harrows from morning till night. Some of them enjoy the modern contrivance of a small two-wheeled cart attached to the harrows, but the majority still walk. In lots of cases they walk at least twenty miles a day, a soft, loose earth after the harrows.

Sowing is commenced as soon as possible after harrowing so as to take advantage of the moist condition of the earth, and often the sower follows right after the harrows. The seeders are from ten to twelve feet wide, and often ten to fifteen acres are sown in a day with a single seeder.

In about three weeks, at the most, if there is lots of rain, the fields are covered with a bed of sprouting grain, and the whole landscape looks a bright green hue.

The native grass is always ahead of the grain, and the farmer always glad when he can turn his cattle out on the prairie to feed, after having to feed them all winter on straw and hay. The grass soon gets long enough to provide good pasture. About the last of May the trees are in full leaf, and the prairie flowers in full bloom. At this time everything seems to be ready to be full of life and strength—young colts and calves running around, chickens, ducks and geese hatching out, the grain growing higher and stronger every day, the trees resplendent in full foliage, and the flowers glorious in their bright colors.

And the farmer, with a proud and happy smile at all this, throws out his chest and prepares for the summer or hay-making season.

Ekville

(Crowded out last week)

The St. Patrick's dance held in the Town Hall was the best ever. The dancers enjoyed themselves and the non-dancers admired the decorations. The ladies served supper. The amusement was made of a birthday dance to be held on Wednesday, the 26th inst. Everybody invited, ladies please bring refreshments.

Mr. Lill has been on a business trip to Stettin in connection with the co-operative movement.

Mr. E. Matchett, Jr., paid a short visit to his home last week. Mr. Matchett, Sr., attended the Co-operative convention in Red Deer on Saturday.

Service was held last Sunday by Mr. Smith of Evans. He is holding these mission services regularly on every second Sunday at 3 o'clock.

Several extra trains passed through Ekville lately, carrying steel girders for the bridge over the Saskatchewan at the Mountain House.

A Change in Real Estate Firms

Messrs. Smith Bros. and Willson Bros. have joined their forces, and will from now on operate under the name of the Smith and Willson Co. They will occupy the office lately occupied by Smith Bros. & Hutton.

The gentlemen comprising the new firm are all well known, and have been in the real estate business for a couple of years or so. They have a very thorough knowledge of Red Deer and the surrounding district, and are thoroughly conversant with real estate values. The Smith Bros. have been in the district for about ten years, during which time they farmed, and in their spare time they handled real estate. They have made the handling of farm lands their specialty.

The Willson Bros. have also been in the district for about nine years, and farmed to a considerable extent for five or six years near Red Deer. The new firm is therefore well qualified for their business, especially the handling of farm lands.

Hutton goes to Edmonton. Any one having property for sale, money to invest, or desiring insurance, will do well to give the new firm a trial.

Liberals Threaten Revolution and Secession from the Empire if Naval Bill is Passed

Extraordinary Statements on Floor of Parliament by an Ex-Minister of the Crown

The childish tactics being employed by the Liberals in the House of Commons in their opposition to the Naval Bill have reached the verge of absurdity. Hon. H. R. Emmerson, formerly Minister of Railways in the Laurier administration, who was once the centre of some scandalous proceedings which were aired in the courts, and led to his forced resignation from the cabinet, deliberately stated on the floor of Parliament that revolution would come if the bill to increase the effective naval forces of the Empire became law. He even quoted the Declaration of Independence to bolster up his argument that the people of Canada would be quite within their rights in seceding from the Empire. Such a speech has never been witnessed in a Canadian legislature. Here is a man, a Kings Privy Councillor, and a member of Parliament, who has broken in on the seals to His Majesty, by openly preaching sedition and treason. It is worthy of note that Mr. Emmerson's remarks in this connection were loudly applauded by the Liberals, and that some of their leaders who preach Revolution, and boasts of a Second Boston Tea Party. The spectacle is humiliating to a people who believe that Canada now work out her magnificent destiny as part and parcel of the British Empire.

A Wonderful Discovery

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zamb-Buk. Just think. As soon as a single thin layer of Zamb-Buk is applied to a wound or a sore, such injury is inured against blood poison! Not one species of microbe has been found that is able to penetrate or kill Zamb-Buk. Then again, as soon as Zamb-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zamb-Buk. They are nothing for the science of the thing. All they know is that Zamb-Buk stops their pain. Mother should never forget this.

Again, as soon as Zamb-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are stimulated, that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zamb-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally eats off the diseased tissue above it. This is why Zamb-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Belvidere Ave., Montreal, called them that for over twenty-five years he has been a martyr to eczema. His hands were one time so covered with sores that he had to sleep in gloves. Four years ago Zamb-Buk was introduced to him and in a few months it cured him.

Today—over three years of his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema.

All druggists sell Zamb-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 10c. stamp (to pay return postage). Address Zamb-Buk Co., Toronto.

The choir of St. Luke's Church are preparing for a concert and dance in aid of the Parish Hall, to be given on May 2nd. Fuller particulars will appear later.

Several prominent citizens were fooled yesterday, it being April Fool's Day. One was 'looking for a hiddle, while another couldn't tell what was the matter with his phone.

St. Luke's Parish Hall can now be rented for meetings, concerts, dances, at homes, etc. Prices can be obtained from Mr. A. G. Ayres, Secretary-Treasurer of the Board of Management.

The local order of Chosen Friends will hold a box social on the 10th of April. Good programme of vocal and instrumental music. After the programme a dance will be held. Everybody welcome. Don't forget to bring your basket and pocketbook.

The regular monthly meeting of the Red Deer branch of the Women's Institute will be held on Saturday, April 5th, at 3 o'clock, in the Sunday School room of the Methodist church. An interesting programme has been arranged. All invited.

Smith & Gaetz' show window is attracting a great deal of notice this week. An automobile, composed entirely of hardware goods, stands ready for action just inside the window. Dan Smith is the artist, and is to be congratulated on the get-up.

E. Plumb has sold five steers out of his bunch for 7 1/2 cents per pound live weight, no shrinkage. This beats Chicago prices. The five steers will average sixteen hundred pounds and will therefore bring Mr. Plumb the handsome figure of \$120 each. Three or four years ago the same steers would have brought about \$40.

Rev. Father H. Vaisin, of Red Deer, is going back to the old country, to attend the general meeting of his order, sooner than he expected. He will not be able to visit the Rocky Mountain and Lethbridge districts, as he had promised to do, until next fall, when he hopes to go back. Rev. Father P. Lamont will take his place for Red Deer and district, and Rev. Father Chavira for Stettler. Please, for all business matters, communicate with the above Fathers.

A. C. Hardenburg, draughtsman with Seymour & Dawes, left Red Deer on Wednesday, having been summoned as a witness to London, England, to appear before the parliamentary Committee which is investigating the Putnam, South America, atrocities. Mr. Hardenburg spent some months in the country, and his revelations in London Truth first directed public attention to the barbarities practised on the natives by the agents of the Rubber Company.

Howard Crocker, of Pine Lake, shipped fifteen high grade two-year-old Holstein heifers, five dairy Shorthorn cows, and a registered Holstein bull to Mr. Cummings, of Guard, Alta., in the Lesser Slave Lake district, last week.

The knife and fork kill more people than the social glass. The penitent grandfather hasn't half the contract he for him that the reforming glutton has.

The former can steer pretty clear of all temptation; the latter has his trouble three times a day, and that, too, 'in its most insidious form.—Dr. W. S. Evans.

The Men's Brotherhood of the Presbyterian Church has opened a bureau of information for rooms and boarding houses in the city.

George Coghlin, in Smith & Coghlin's barber shop, is in charge of this work. All who have rooms to rent or board to offer, are invited to call or write and state location, terms and other definite information.

THE ECKHARDT STOCK CO.

This excellent troupe put on "The Man on the Box," Monday night, to a fair house at the Lyric, and a bumper house last night. We understand they play tonight, and all who desire to hear a good show should be present. Oliver J. Eckhardt and Miss Violet Eddy were particularly good Monday night. Change of programme each night.

NEW REGIMENT.

A new regiment of Mounted Horse, to be known as the 35th Central Alberta Horse, with headquarters at Red Deer, has been gazetted. There are three squadrons in the regiment at present, namely, Red Deer, Pine Lake and Wetaskiwin. Captain J. C. Moore is in charge in Red Deer. A large armory will probably be built at Red Deer as headquarters of the regiment.

SOCIALIST CANDIDATE STILL IN THE FIELD.

To the Editor "News." Dear Sir,—Would you be good enough to publish the following. The statement is being widely circulated that the Socialists of the Red Deer riding have withdrawn their candidate. This is absolutely untrue. Geo. Paton, of Content, will be nominated as Socialist candidate on April 10th. Yours truly,

C. H. SNELL.

Sec. Local Red Deer Socialist Party of Canada.

March 31, 1913.

WA-KO-VER FLOOR STAIN

To turn your soft wood floors into hardwood, all that is necessary is a willing hand, a tin of Wa-Ko-Ver and a brush. Wa-Ko-Ver is a color, finish and stain combined. Remarkable both for beauty and durability.

As its name implies it is a finish that withstands the constant walking over and pounding of feet without injury to its appearance. Indeed, it is so remarkably tough in Wa-Ko-Ver that if the floor is hit with a hammer the wood may dent in sympathy with the wood but is elastic enough to give without cracking.

Wa-Ko-Ver floors are easiest to clean and stay clean longest—are far more sanitary. Just try Wa-Ko-Ver in one room and you'll soon use it in the others.

RELINDO

Ladies, impress this name on your memories! It's a Spanish word meaning elegance and excellence. Relindo is the name of the best shoe for women money can buy. Quality goes in before that name goes on. Every point that makes for shoe perfection in high-grade first quality shoes is embodied in Relindo Shoes. The Trademark is stamped on every shoe and is an absolute guarantee of shoe perfection. The special and exclusive feature of the Relindo Shoe is the "Nerve-Ease" cushion heel. This heel is practically honeycombed with air cells. The wearer of Relindo shoes experiences no jars from walking. If you want shoes that harmonize with and accentuate the charm and grace of your appearance—buy Relindo Shoes.
